

**I have been a native Metropolitan Phoenix since 1990; my father has been investing, managing and selling Real Estate as far back as I can remember! I have graduated from the Arizona School of Real Estate and business and also hold a degree in Global Business Management. With my education and life long exposure to the Arizona Real Estate Market; it has made becoming an Agent in the valley of the sun a natural pathway for me. Although I've only held a license since 2005, my association with my father and other top professionals has expedited my learning curve in this industry. Because of this; I am able to evaluate neighborhoods, and the investment quality they may or may not offer! I believe ownership is not only a quality of life but also an investment in your future...and of course, the #1**

**Wealth Builder in America today!**

- I consistently review all financing options available for home buyers!**
